

STAGE 02 OF 3 · VISIBILITY CONSOLE + SOLUTIONS

IGNITION

VISIBILITY CONSOLE + SOLUTIONS

Fix it.

A free, white-label diagnostic — delivered through Livium and TrueTrack — that overlays search, local listings, your website, CRM and DMS, and prices every leak in dollars. Then a solutions team fixes what it finds. It's the console you already trust, doing more.

WHAT IT MEANS FOR YOUR DEALERSHIP

- See what invisible inventory, cold leads, and missed local traffic are costing you — in real numbers
- Benchmarked against other dealers, not guesses
- Scoped, priced fixes — not another sales pitch
- Delivered inside tools you already use, so there's nothing new to log into

HOW IT WORKS

01

Connect

Joins 7 systems no single vendor sees end-to-end: search, local, website, CRM, DMS, financials, and AI visibility.

02

Diagnose

Every metric is benchmarked against peer dealers, with a dollar figure on every leak.

03

Fix

A solutions team resolves indexation, structured-data, and visibility issues — scoped and priced.

800+

dealers already live via Livium and TrueTrack

7

systems joined that no single vendor sees end-to-end
